1.	Volume II, Draft CA, Page 141 of 212, Schedule B, 2, I, (i), a, iv, Development of Project,	We have been to the site and realized that Aerial simulation is not a possibility as it needs very spacious rooms with a minimum of 70 to 80ft clear height.	No change. The contents of the show should showcase rich cultural History of Punjab Further, the department never gave any specification of height or an example of the show. The Flyover immersive Aerial virtual reality tour , is a tour which makes you feel that you are flying along the contours of landscape. It can also be done with seating at base/ Normal height level with screen at base level. The seats can be actuated as per the content to give feeling of virtual realty. The point is this is unique digital segment, which is actual crowd puller on account of its immersive factor. Hence please offer alternate equipment based on the same technology.
